## Music for The Dream Factory

This CD features a refreshing and eclectic mix of songs and arrangements ranging from symphonic rock, to jazz rock, to progressive rock to jazz. Put plainly, "Without A Word" is really a remarkable and satisfying work. Listen to some of the world's most extraordinarily talented musicians such as Julian Coryell, Joel Taylor, Dmitry Ilugdin, Mark Shulman and Edward Tsiselsky, who is basically a one-man orchestra. Simply amazing. In this album, there are endless musical ideas that could've easily ended up in dozens of movie soundtracks. Some of you will recall your youth and passion for progressive rock. Ahh, musical memories! So, after a long day at work, do what all music lovers do - come home, light a candle, pour a glass of full bodied Napa Cabernet and enjoy this beautiful music...Without a Word.
